Rubbish!

Enfield **Green Party** are calling for rapid improvements in recycling and rubbish – and asking Bowes residents to join calls for action.

Peter Krakowiak of Enfield Green Party said: **“We have heard countless comments on the doorsteps about the litter and vermin that is caused by bin liners. My friends in other London boroughs are amazed that Enfield doesn’t have proper wheelie bins for litter that the rats and foxes can’t get into.”**

Laura Davenport added: **“It’s also amazing that residents in many flats still don’t have access to recycling. The Council will be spending almost £1million on the landfill and incineration of our waste over the next 12 months. The borough should be increasing recycling opportunities for all residents.”**

Green Party activists will spend the next eight weeks knocking on doors in Bowes asking residents to sign postcards to the council’s head of environment. The cards call for:

- ♻️ Wheelie bins for general rubbish

Local Green Party activists are calling for a crackdown on flytipping

- ♻️ Larger black recycling bins for every house
- ♻️ Green compost recycling bins for every house
- ♻️ Recycling facilities for residents who live in flats

The cards also have council phone numbers to report flytipping, pest control, street cleaning and broken pavements. Laura said: **“We all want to see a cleaner Bowes. We hope that people will keep the numbers handy and use them to report incidents to the council that need sorting out.”**

London Green MEP scoops Human Rights award

Jean Lambert, London’s Green MEP, has won the 2005 Award for Justice and Human Rights. Only five awards are made for outstanding achievement in various policy areas.

Jean has been actively involved in issues surrounding justice and human rights for many years. At the beginning of this 2005 she introduced proposals to the European Parliament, through the Green Refugee Plan, making radical improvements to the

way refugees are treated. More recently Mrs Lambert has supported the ‘Brides without Borders’ campaign, a group of 20 couples being denied their human rights and now facing separation due to immigration laws.
