

HARINGEY GREEN PARTY

Public Meeting on the Trans-Atlantic Trade & Investment Partnership (TTIP)

Wednesday April 23rd, 7.30pm

at the Archway Methodist Hall (middle of the Archway roundabout)

DON'T TTIP PUBLIC SERVICES DOWN THE DRAIN !

**A dangerous new treaty is on the way between the EU and the USA.
It's called the Transatlantic Trade and Investment Partnership**

**It may make it impossible to re-nationalise any public service that's
been sold off or contracted out - like the railways or bits of the
NHS!**

**It will let companies sue governments about almost any policy that's
against the company's interest.**

**It may threaten environmental regulations, safety rules, and workers'
rights**

**It's being talked through in secret. The European Commission prom-
ised a public consultation period in March – but nothing's been an-
nounced about that and March is over half gone as we write this
leaflet**

**Similar treaties have got some governments (e.g. Equador) big fines
even for trying to get a company to pay its taxes properly**

COME AND HEAR:

Jean Lambert, Green MEP for London

David Malone, journalist

Linda Kaucher, journalist

John Hilary, War on Want
