

Enfield Green Party

Privacy Notice

We collect the following data:

- 1) Membership data is held by our national Party and accessed by us on a central database. Only local members' and supporters' data is accessible by Enfield Green Party. This is used for membership-related matters, campaigning and soliciting donations.
- 2) Electoral Registers supplied by Enfield Council's Electoral Services department. These are used as a basis for canvassing and for identifying voters likely to be sympathetic to our party's aims.
- 3) Canvassing data – opinions expressed by voters in doorstep conversations, some going back several years. Used as above.

We do not share any of this data with other organisations, with the obvious exception that membership data is shared with our national Party, and also with the London Federation of Green Parties
